IVORY CATCHING IT

LONDON, Jan. 18 .- The trial 6' Edward J. Ivory alias Edward Bell of New York, arrested in Glasgow on The Leading Events of the Day in This September 13th last, charged with conspiracy to destroy life and property by the use of dynamite, begun in the Old

sy, Carter, and U. S. Consul-General Patrick A. Collins were present in court. Ivory was well dressed and perfectly composed, and pleaded not guilty. Castellane, formerly Miss Anna Solicitor-General Findley, then presented the prosecutors side of the case to the court and jury and charged conpiracy with Tynan and others to cause the explosion thus endangering life and property. The barrister read the letter of Ivory which he said proved Ivory was engaged in making inquiries in London and Glasgow, and was purpos. ing to engage men to cause the explosions. Mr. Findley in continuing the argument said the evidence which the prosecution would produce would link Ivory with the doings of Kearney in Antwerp. He would show that the ited Irishmen and that he had attended the secret meeting of the United Irishmen in Chicago, and left the United States in concert with Tynan, Kearney and Haines.

Thomas Charles Jones testified that vory called at his place and asked to purchase 25 pounds of chlorate of potassium saying he wanted it for the purpose of making experiments. Solicitor Taylor for defense, cross examined the witness with great severity. Associated with the prisoner's counsel, which includes Solicitor Russell, son of the Lord chief justice of England, is formerly Assistant District Attorney McIntire who has been engaged by ivory's friends ln New York. It has been thought that McIntire would perhaps be permitted to plead in behalf of Ivory but his action will be limited to that of an advisory capacity
